December 31, 2021

Patrick Martinez
Assistant City Manager/Development Services Director
City of Needles
817 Third Street Needles
CA 92363

Dear Patrick Martinez:

RE: City of Needles' 6th Cycle (2019-2029) Draft Housing Element

Thank you for submitting the City of Needles' (City) draft housing element received for review on November 1, 2021. Pursuant to Government Code section 65585, subdivision (b), the California Department of Housing and Community Development (HCD) is reporting the results of its review. Our review was facilitated by conversation on December 28, 2021 with you; Cindy Semione, Community Development Assistant; Emily Elliott; Jon Braginton; and Aaron Barrall, City's consultants.

The draft element addresses many statutory requirements; however, revisions will be necessary to comply with State Housing Element Law (Article 10.6 of the Gov. Code). The enclosed Appendix describes revisions needed to comply with State Housing Element Law.

As a reminder, the City's 6th cycle housing element was due October 15, 2021. As of today, the City has not completed the housing element process for the 6th cycle. The City's 5th cycle housing element no longer satisfies statutory requirements. HCD encourages the City to revise the element as described above, adopt, and submit to HCD to regain housing element compliance.

For your information, pursuant to Assembly Bill 1398 (Chapter 358, Statutes of 2021), if a local government fails to adopt a compliant housing element within 120 days of the statutory deadline (October 15, 2021), then any rezoning to accommodate the regional housing needs allocation (RHNA), including for lower-income households, shall be completed no later than one year from the statutory deadline. Otherwise, the local government's housing element will no longer comply with State Housing Element Law, and HCD may revoke its finding of substantial compliance pursuant to Government Code section 65585, subdivision (i).

Pursuant to Government Code section 65583.3, subdivision (b), the City must utilize standards, forms, and definitions adopted by HCD when preparing the sites inventory. Please see HCD's housing element webpage at <https://www.hcd.ca.gov/community-development/housing-element/index.shtml#element> for a copy of the form and instructions. The City can reach out to HCD at sitesinventory@hcd.ca.gov for technical assistance. Please note, upon adoption of the housing element, the City must submit an electronic version of the sites inventory with its adopted housing element to sitesinventory@hcd.ca.gov.

Public participation in the development, adoption and implementation of the housing element is essential to effective housing planning. Throughout the housing element process, the City should continue to engage the community, including organizations that represent lower-income and special needs households, by making information regularly available and considering and incorporating comments where appropriate.

Several federal, state, and regional funding programs consider housing element compliance as an eligibility or ranking criteria. For example, the CalTrans Senate Bill (SB) 1 Sustainable Communities grant; the Strategic Growth Council and HCD's Affordable Housing and Sustainable Communities programs; and HCD's Permanent Local Housing Allocation consider housing element compliance and/or annual reporting requirements pursuant to Government Code section 65400. With a compliant housing element, the City meets housing element requirements for these and other funding sources.

For your information, some general plan element updates are triggered by housing element adoption. HCD reminds the City to consider timing provisions and welcomes the opportunity to provide assistance. For information, please see the Technical Advisories issued by the Governor's Office of Planning and Research at: http://opr.ca.gov/docs/OPR_Appendix_C_final.pdf and http://opr.ca.gov/docs/Final_6.26.15.pdf.

HCD appreciates the hard work the City's team provided during the course of our review. We are committed to assisting the City in addressing all statutory requirements of State Housing Element Law. If you have any questions or need additional technical assistance, please contact Divya Sen, of our staff, at Divya.Sen@hcd.ca.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'Melinda Coy', with a long horizontal stroke extending to the right.

Melinda Coy
Senior Housing Accountability Manager

Enclosure

APPENDIX CITY OF NEEDLES

The following changes are necessary to bring the City's housing element into compliance with Article 10.6 of the Government Code. Accompanying each recommended change, we cite the supporting section of the Government Code.

Housing element technical assistance information is available on HCD's website at <http://www.hcd.ca.gov/community-development/housing-element/housing-element-memos.shtml>. Among other resources, the housing element section contains HCD's latest technical assistance tool, *Building Blocks for Effective Housing Elements (Building Blocks)*, available at <http://www.hcd.ca.gov/community-development/building-blocks/index.shtml> and includes the Government Code addressing State Housing Element Law and other resources.

A. Review and Revision

Review the previous element to evaluate the appropriateness, effectiveness, and progress in implementation, and reflect the results of this review in the revised element. (Gov. Code, § 65588 (a) and (b).)

Special Needs Populations: As part of the review of programs in the past cycle, the element must provide an evaluation of the cumulative effectiveness of goals, policies, and related actions in meeting the housing needs of special needs populations (e.g., elderly, persons with disabilities, large households, female-headed households, farmworkers, and persons experiencing homelessness).

B. Housing Needs, Resources, and Constraints

1. *Affirmatively further[ing] fair housing in accordance with Chapter 15 (commencing with Section 8899.50) of Division 1 of Title 2...shall include an assessment of fair housing in the jurisdiction (Gov. Code, § 65583, subd. (c)(10)(A))*

Fair Housing Enforcement and Outreach: The element must address the ability to provide enforcement and outreach capacity which can consist of actions such as ability to investigate complaints, obtain remedies, or the ability to engage in fair housing testing. The analysis must also describe compliance with existing fair housing laws and regulations and include information on fair housing outreach capacity. Furthermore, the revisions should address degree of outreach to all sectors of the community, ongoing outreach and public participation throughout the planning period, indicate any findings, lawsuits or enforcement actions taken.

Racial/Ethnic Areas of Concentration of Poverty (R/ECAP): The element includes some data on R/ECAP but no regional data or analysis concentrated areas of affluence (p.A-19). The element should also be revised to include regional data on areas of affluence and analyze this data for trends and patterns.

Access to Opportunity: The element includes limited local data on access to opportunity (pp. A-19 to A-29), but no regional data and analysis on access to transportation and environmental opportunities. The element should include complete data on disparities in access to opportunity and evaluate patterns at a local and evaluate both local and regional patterns and trends, including impacts on access to opportunity for protected characteristics.

Disproportionate Housing Needs: The element includes some data on overcrowding, and substandard housing at a City level but should also include analysis at a regional level for overcrowding and substandard households.

Local Data and Knowledge, and Other Relevant Factors: The element must include local data, knowledge, and other relevant factors to discuss and analyze any unique attributes about the City related to fair housing issues. The element should complement federal, state, and regional data with local data and knowledge where appropriate to capture emerging trends and issues, including utilizing knowledge from local and regional advocates and service providers. Also, the element must include other relevant factors that contribute to fair housing issues in the jurisdiction. For instance, the element can analyze historical land use and investment practices or other information and demographic trends.

Site Inventory: While the element includes maps and some analysis on sites for segregation and integration, racially and ethnically concreated areas of poverty and areas of affluence, and access to opportunity, it must include an analysis demonstrating whether sites identified to meet the regional housing needs allocation (RHNA) are distributed throughout the community in a manner that affirmatively furthers fair housing (AFFH). A full analysis should address the income categories of identified sites with respect to location, the number of sites and units by all income groups and how that effects the existing patterns for all components of the assessment of fair housing (e.g., segregation and integration, access to opportunity). The element should also discuss whether the distribution of sites improves or exacerbates conditions. If sites exacerbate conditions, the element should identify further program actions that will be taken to mitigate this (e.g., anti-displacement strategies).

Goals, Priorities, Metrics, and Milestones: Goals and actions must create meaningful impact to overcome contributing factors to fair housing issues. Currently, programs are not sufficient to facilitate meaningful change and address AFFH requirements (p.40). Based on the outcomes of a complete analysis, the element must be revised to add or modify goals and actions. Goals and actions must specifically respond to the analysis and to the identified and prioritized contributing factors to fair housing issues and must be significant and meaningful enough to overcome identified patterns and trends. Actions must have metrics and milestones as appropriate and must address housing mobility enhancement, new housing choices and affordability in high opportunity areas, place-based strategies for community preservation and revitalization and displacement protection.

2. *Include an analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected needs for all*

income levels, including extremely low-income households. (Gov. Code, § 65583, subd. (a)(1).)

Extremely Low-income Households (ELI): While the element quantifies existing and projected ELI households (pp. 18 & 29), it must also analyze their housing needs. The analysis of ELI housing needs could consider tenure and rates of overcrowding and overpayment and consider existing housing resources.

3. *An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level, and an analysis of the relationship of zoning and public facilities and services to these sites. (Gov. Code, § 65583, subd. (a)(3).)*

The City has a RHNA of 87 housing units, of which 21 are for lower-income households. To address this need, the element relies on vacant sites. To demonstrate the adequacy of these sites and strategies to accommodate the City's RHNA, the element must include complete analyses:

Realistic Capacity: While the element provides assumptions of buildout for sites included in the inventory (pp. 30-32), it must also provide support for these assumptions. For example, the element should demonstrate what specific trends, factors, and other evidence led to the assumptions. The estimate of the number of units for each site must be adjusted as necessary, based on the land use controls and site improvements, typical densities of existing or approved residential developments at a similar affordability level in that jurisdiction, and on the current or planned availability and accessibility of sufficient water, sewer, and dry utilities.

Environmental Constraints: The element must describe any known environmental constraints within the City that could impact housing development in the planning period. (Gov. Code, § 65583.2, subd. (b).)

Sites with Zoning for a Variety of Housing Types:

- *Accessory Dwelling Units (ADUs)*: ADUs are not permitted in all zones allowing residential uses (e.g., commercial zones). For example, ADUs are not allowed in C-2 zone, where multifamily is specially permitted (p. 40). HCD will provide a complete listing of ADU noncompliance issues under a separate cover. As a result, the element should add a program to update the City's ADU ordinance in order to comply with state law. For more information, please consult HCD's ADU Guidebook, published in December 2020, which provides detailed information on new state requirements surrounding ADU development.
4. *An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees and other exactions*

required of developers, and local processing and permit procedures. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Government Code section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (7).

Local Processing and Permit Procedures: The element should describe the City's SB 35 (Chapter 366, Statutes of 2017) streamlined ministerial approval procedure and application and revise program B-1 if appropriate.

Constraints on Housing for Persons with Disabilities: The element currently details that residential care facilities serving six or fewer persons are conditionally permitted in R-1, R-2, CRR, C-1 and specially permitted in R-3. However, residential care facilities serving seven or more persons are not permitted in any zone. The element should analyze the process as a potential constraint on housing for persons with disabilities and add or modify programs as appropriate to ensure zoning permits group homes objectively with approval certainty.

5. *An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, the cost of construction, the requests to develop housing at densities below those anticipated in the analysis required by subdivision (c) of Government Code section 65583.2, and the length of time between receiving approval for a housing development and submittal of an application for building permits for that housing development that hinder the construction of a locality's share of the regional housing need in accordance with Government Code section 65584. The analysis shall also demonstrate local efforts to remove nongovernmental constraints that create a gap between the locality's planning for the development of housing for all income levels and the construction of that housing. (Gov. Code, § 65583, subd. (a)(6).)*

The element must be revised to include analysis of requests to develop housing at densities below those anticipated, and the length of time between receiving approval for a housing development and submittal of an application for building permits that potentially hinder the construction of a locality's share of the regional housing need. The element must include a program that mitigates nongovernmental constraints that create a gap in the jurisdictions ability to meet RHNA by income category.

6. *Analyze any special housing needs such as elderly; persons with disabilities, including a developmental disability; large families; farmworkers; families with female heads of households; and families and persons in need of emergency shelter. (Gov. Code, § 65583, subd. (a)(7).)*

Special Needs Populations: While the element quantifies the City's special needs populations, it must also analyze their special housing needs. For a complete analysis of each population group, the element should discuss challenges faced by the population, the existing resources to meet those needs (availability senior housing

units, # of large units, # of deed restricted units, etc.), an assessment of any gaps in resources, and proposed policies, programs, and funding to help address those gaps.

C. Housing Programs

1. *Include a program which sets forth a schedule of actions during the planning period, each with a timeline for implementation, which may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the Housing Element through the administration of land use and development controls, the provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available. The program shall include an identification of the agencies and officials responsible for the implementation of the various actions. (Gov. Code, § 65583, subd. (c).)*

Programs must demonstrate that they will have a beneficial impact within the planning period. Beneficial impact means specific commitment to deliverables, measurable metrics or objectives, definitive deadlines, dates, or benchmarks for implementation. Deliverables should occur early in the planning period to ensure actual housing outcomes. All programs should be evaluated to ensure meaningful and specific actions and objectives. Programs containing unclear language (e.g., “Evaluate”; “Consider”; “Encourage”; “as needed” etc.) should be amended to include specific and measurable actions. In addition, the element must provide discrete timing for all programs (e.g., month, year) to account for how often the action will occur as well as to ensure a beneficial impact throughout the planning period and quantify objectives where feasible.

2. *Identify actions that will be taken to make sites available during the planning period with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city’s or county’s share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Government Code section 65584.09. Sites shall be identified as needed to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing. (Gov. Code, § 65583, subd. (c)(1).)*

As noted in Finding B3, the element does not include a complete site analysis, therefore, the adequacy of sites and zoning were not established. Based on the results of a complete sites inventory and analysis, the City may need to add or revise programs to address a shortfall of sites or zoning available to encourage a variety of housing types. In addition, the element should be revised as follows:

Program B-11 By-Right Projects: The element should describe how the City will encourage the construction of development on sites that allow housing without discretionary review.

3. *The Housing Element shall contain programs which assist in the development of adequate housing to meet the needs of extremely low-, very low-, low- and moderate-income households. (Gov. Code, § 65583, subd. (c)(2).)*

The element must include a program(s) with specific actions and timelines to assist in the development of housing for extremely low-, very low-, low-, and moderate-income households. The program(s) could commit the City to adopting priority processing, granting fee waivers or deferrals, modifying development standards, granting concessions and incentives for housing developments that include units affordable to lower and moderate-income households; assisting, supporting or pursuing funding applications; and working with housing developers coordinate and implement a strategy for developing housing affordable to lower and moderate income households.

4. *Address and, where appropriate and legally possible, remove governmental and nongovernmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities. (Gov. Code, § 65583, subd. (c)(3).)*

As noted in Finding(s) B4 and B5, the element requires a complete analysis of potential governmental and nongovernmental constraints. Depending upon the results of that analysis, the City may need to revise or add programs and address and remove or mitigate any identified constraints.

5. *Promote and affirmatively further fair housing opportunities and promote housing throughout the community or communities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability, and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2), Section 65008, and any other state and federal fair housing and planning law. (Gov. Code, § 65583, subd. (c)(5).)*

As noted in Finding B1, the element must include a complete analysis of AFFH. Based on the outcomes of that analysis, the element must add or modify programs. In addition, Program F-1 to F-6 should include specific commitments to administer its programs and activities relating to housing and community development in a manner to AFFH and take no action that is materially inconsistent with its obligation to AFFH pursuant to Government Code section 8899.50.

D. Quantified Objectives

Establish the number of housing units, by income level, that can be constructed, rehabilitated, and conserved over a five-year time frame. (Gov. Code, § 65583, subd. (b)(1 & 2).)

Include quantified objectives estimating the number of housing units by income category that can be constructed, rehabilitated, and conserved over a five-year time period. This requirement could be addressed by utilizing a matrix like the one illustrated below:

| Income | New Construction | Rehabilitation | Conservation/ Preservation |
|-----------------|-------------------------|-----------------------|-----------------------------------|
| Extremely Low- | | | |
| Very Low- | | | |
| Low- | | | |
| Moderate- | | | |
| Above Moderate- | | | |
| TOTAL | | | |

E. Public Participation

Local governments shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the Housing Element, and the element shall describe this effort. (Gov. Code, § 65583, subd.(c)(8).)

While the element includes a general summary of the public participation process (p. 4), it must also demonstrate diligent efforts were made to involve all economic segments of the community in the development of the housing element, specifically lower-income households. The element could describe the efforts to advertise and engage lower-income households in workshops and additional methods, circulate the housing element to low- and moderate-income households and organizations that represent them and to involve such groups and persons in the element throughout the process. In addition, the element should also summarize the public comments and describe how they were considered and incorporated into the element.
